Program in Sponge Absortion at Bikini Bottom University 7/1/03-6/30/05

Sub-Project -- Seed Grant Award (Squidward)

Development of a non-annoying sponge 03/01/2004-06//30/2005 10%

The goal of this project is to conduct initial work for establishment of a Spongebob clone to see if he can be any less annoying.

2 R01 DK088888-04 A2 (Stipanuk) 04/01/2004-03/31/2009 30%

Nutritional Content of Krabby Patties

The major goal of this project is to help Mr. Krabbs sell more Krabby Patties at the Krusty Krab and run Plankton out of business.

OVERLAP

There is no overlap with other projects.

Squarepants, Spongebob**PENDING****1 R01 DK099999-01 A2 (Stipanuk) 07/01/2004-06/30/2008 25%

Sea Urchins: Not Just for Breakfast Anymore

The major goal of this project is to merely function as a demonstration file for use as an Other Support upload document in the eRA COMMONS Demo Lab.

OVERLAP

There is no overlap with other projects which focus on anything remotely to do with science.

***Project under consideration for funding.*

There is no overlap with other NIH proposals. The CSREES seed grant provided limited funds to begin the initial work on development of the Spongebob clone that will be used in this study.
